A Record Never Before Achieved by an American Newspaper.

THE BIGGEST BUISANCE.

THE EVENING WORLD having discontinued is interesting correspondence on the queson of the use its readers would make of realth if they should suddenly become millmaires, now invites letters on "The Bigges Mulannes and Its Remedy."

This opens up a prolific subject, and its on is likely to prove practically eficial. There are many nuisances existence, and when a number brains among THE EVENING WORLD'S multitude of readers are devoted to their exposure and to suggestions for their moval, it would be singular if some valuble information should not be the result.

So we cordially invite our friends to reflect on what they would consider the greatest sance in existence, and the most effective method for its removal, and to let us have the result of their cogitations.

Mr. ABRAM S. HEWITT is now Mayor of New York. He has manifested an eager desire to continue Mayor, but the people have put their veto on his ambition. He professed to wish to continue in his present position in the interest of good government.

If Mr. HEWITT was sincere in this latter averment, he has an opportunity to prove it now. The Commissioners of Accounts are notoriously seeking to protect and cover up gross irregularities and proceedings that ever of corruption in the City Record undergoing investigation by the ate Fassett Committee. Why does not Mr. HEWITT stop this superserviceable zeal the part of his Commissioners of Accounts, who are wholly under his control. and aid in eliciting the truth about the

At the present moment orders for station out that will swallow up two-thirds of the shamefully profligate appropriation for the City Record office for next year. Mr. HEWITT knows that it is not in the interest of the city to allow this money to be expended by an official under suspicion and charges of maiadministration and to be mainly paid to a disgraced Excise Commissioner. Why does he not at once remove Mr. Costigan, which he can do at a day's notice, and put the expenditure of next year's appropriation in trustworthy hands?

Is Mayor HEWITT anxious to close his term in disgrace?

WHITE HOUSE TOADYISM.

The irrepressible Jenkins is busy in laying the foundation for milksop sensationalism at the White House during the next Presidential term. This time st is to be a plagiarism on "Tap" LINCOLN. We are told that th " boss" of the Presidential mansion for four years after next 4th of March is to be the andson of President-elect Harrison, " Little Bus." This juvenile hero is the son of Mrs. McKnz, a " blue-eyed, round-cheeked, fair-haired youngster" of eighteen months old, "the picture of his grandfather."

No doubt little Bux is a very nice boy when he has not got the cotic and is not cutting a tooth. No doubt his grandfather pets him, as he ought to do. But this idea of nufacturing wonderful infants and beautiful women for a Presidential term, who pass away into ordinary life at the close of four, or at most eight, years, is the most stupid kind of toadyism, and should not be en-

The plain fact is that a reputable, united and happy American family is to occupy the White House for the next four years. It will probably be some time before that official sidence has at its head a more attractive lady than has ruled over its domestic affairs for a portion of Mr. CLEVELAND's term. But the ladies of Gen. HARRISON'S family are refined and amiable, and in point of personal

uary. It is not probable that Mr. will again enter the political arena. So the election has cleared away a great many local politicians. Mr. GRANT and Mr. ERHARDT are left. The first has a future if he gives the city a strong and honest government. The latter may be heard of before long in the Post-Office.

The Empress FREDERICK of Germany, Crown Princess of England, is back with her mother, Queen VICTORIA, at Windsor. The Empress has realized the extent of her ambition and possesses large wealth. She will perhaps be happier with her own family than she has been for years, excepting only the grief at her husband's death. The Empress has had an unpleasant experience in Germany. But she doubtless drew it on herself by her ambition to meddle in matters from which she ought to have stood aloof.

Mrs. Marrin, of Manhattan street, is what the boys would call "a daisy." When her husband was in trouble yesterday in the Court of General Sessions she tried to get him off, and when a burly policeman told the Judge that the prisoner was in the habit of beating his wife, the little woman, who could not deny it, turned smilingly to the Judge and said : "Well, I generally deserved it." If this does not reform Mr. MARTIN he ought to go to prison for life.

The unpleasant incident at a Cincinnati hotel, in which Miss LILLIAN CONWAY and Mr. WALTER LENOX, Mrs. LANGTRY's agent. figured, will make some changes in profesatonal engagements. Miss Conway has left the Conreid Opera Company, and of course Mrs. LANGTHY will dispense with Mr. LENOX's

Why She Was a Hereine

We were running down from Charleston to Savannah, and the train was humming along at high speed when the danger, signal blow and the air-brakes were put on hard. As the train stopped, all the passengers piled out to see what was the trouble, and we soon discovered that a culvert around the short curve had been washed out. A negro woman had flagged the train with a white apron, and of course we all looked upon her sa heroine. 'When did you discover that the culvert was gone?' Dudes are tailor-made creatures, and although Mr. Rock furnished a great deal of the material in the mate-up of Mr. Wall for three years it was perhaps not a tents part of all that was required to sustain his kingly dirativa semanareh of Dudedom. It will be noticed from a perusal of the tail that it begins with an item for a suit of clothes and ends with one for for cleaning and p

four suits of elegant garments, costing in the ag-gre-rate Siid, but that the money market was be-coming lighter in 1866 when the "old clo" had to be taken out and remade and trousers "let out in seat, &c, " to accommodate the increased corpor-osity of Mr. Wall.

The first items of the bill show that Berry's wardrobe was receiving additions of new garments very frequently, while the latter would seem to say that the King was tottering on his throns and striving hard to keep up appearances on a depleted treasury.

THE WIPE-MURDERER TO PAY THE LAW'S EXTREMEST PENALTY.

Nov. 30 Is the Day New Met for His Ex ecution - The story of His Atroclous Crime-It Was Jealousy That Broke Up His Norfolk Street Home-Reich's Life

Adolph Reich, the wife-murderer, unless the Governor interferes, will be hanged on the last day of this month.

Warden Osborne has isolated him in view of his approaching death, and he is now the only occupant of a cell on the southern corridor of the new prison in the Tombs. His cell is No. 2 on the ground tier and has a big stove, red, hot all the time, in front of it. Reich awaits death calmly. He is about

axty years old, short and stout of figure, and Warden Osborne says he is an exceptionally good prisoner.

Keepers McCaffrey and Keegan watch him in turn, night and day. He gives them no frouble at all, and rarely so much as speaks

to them.

The Sheriff, as in the case of all condemned prisoners, pays his board for him at the rate of \$7 a week. He gets the best of everything, but eats no meat of any kind, in accordance with the strict tenets of the Jewish or-

with the strict tenets of the Jewish orthodoxy.

Most of his time he spends in perusing the pages of the Taimud, the Jewish Bible, and reading Hebrew newspapers.

Then, again, he has fits of meditation and sits for hours with one leg over the other, his hands clasped about his knees, his body bent forward and his eyes star ng into vacancy.

None know what his thoughts are at such times, and it is probable that they are varied; ranging, maybap, from the days of his innocent boyhood, in his home across the seas, up to the date of his marriage, his emigration to this country, and, finally the murder of his wife.

His son is the only one that ever calls to see him.

him.

His appetite used to be good, but of late his health has failed him.

He cuts lightly, three times a day, of eggs, toast sud fruits, and drinks milk and coffee. He ests lightly, three times a day, of eggs, toast and fraits, and drinks milk and coffee. Even the keepers who are constantly with him cannot tell if he expects a reprieve. The only one in the Tombs whose presence seems to give him pleasure is Warden Osborne. To him the condemned man would talk for hours; but, according to a rule he laid down for himself, the Warden will not converse with the prisoners unless on matters pertaining to the conduct of the prison.

If they have any fault to find or complaint to make there is no man easier to see or more eager to listen than the Warden.

Reich's crime was caused by jealousy.

His wife was many years his junior. They lived in two rear rooms on the second floor of 144 Norfolk street. On the night of Tuesday, April 19, 1887, Reich got home, somewhat under the influence of liquor, about 11 o'clock. His wife, attired only in her chemise, opened the door and admitted him.

She then got into bed.

Reich accused her of being over fond other men and jawed for some time. Finally he respected a burse table langer.

There was much elequent talk in the sign language.

Reich acqueed her of being over fond other men and jawed for some time. Finally he grasped a huge table-knife and with it cut her throat from ear to ear, as she lay on the bed. Then he coolly wiped the knife on a towel and washed his handa.

The woman dragged herself out of the rooms and knocked at a neighbor's door for admittance. The peculiar noise she made trying to articulate frightened them and they would not open the door. Her husband walked out, passing her as she lay in the hall. She died in a few minutes.

Reich returned to the house, later, after the crime was discovered, and at first disclaimed all knowledge as to how his wife came by her death. Blood spots on his foot fastened suspicion on him, though, and he was arrested. Then he confessed.

On his trial, he pleaded self-defense, but a through several Winters, will resume its sessions on Wednesday evening next. Nov. 21. " A Unique Stroke of Enterprise," The New York EVENING WORLD has acco plished a unique stroke of enterprise in obtaining nals who are now suffering imprisonment for grea orimes. These distinguished people all spoke freely if not with condescension, and it was just a tile remarkable to note their familiarity with al the current events of the day and the lively inter est evinced in happenings outside the prison walls Of the Whitechapel horror nearly all entertained clearly defined opinions, and although they were too modest to make the proposition, they evidently entertained the opinion that were they at liberty an example of skill and astuteness would be given the English detectives which would make the whole world appland. Jesse Pomeroy, the boy fiend, explained the Whitechapel crime on the Dr. Jeykli and Mr. theory, while another convict had pictured to himself a murderous Malay sailor, half crazed by real or fancied wrongs, as the guilty wrotch. As old "her" thought that the murderer would be captured by accident only, while

another gratic-faced fellow, convicted of man-slaughter, suggested that a sharp pollocman, dis-guised as a woman, might detect the homicide. In all the interviews published, almost without exception, the convicts expressed righteous horro of the crime and united in the hope that the White chapel murderer might be identified and punished which to elicit opinions, but it provided interesting reading matter, and THE EVENING WORLD probably considered that was sufficient.

He Is Certainly a Butcher.

To the Editor of The Resains World:

I believe the Whitechapel murderer to be a clever, insane butcher, who steals out in the darkness of the night, with carving-knife in hand, and, watching his opportunity, approaches the unsuspecting woman and accomplishes his terrible deed. Blood upon his clothing would not be noticed. So is could easily escape detection from his crime. My advice to the London police is, therefore, to take in hand any person found at night with blood on his clothing, and, in the end, they would surely find the terrible Whitechapel fiend.

535 Courtlandt avenue, New York, Nov. 19. the make-believe one interrupted on the stage. Blake seeing that the manager was getting the worst of it drew his stage dagger from its sheath and made a dash for one of the pillars supporting the gallery. He began shinning up with the knife in his teeth and murder in his heart. Some one gave him a boost and he caught the railing with his hand and climbed over. The audience was now standing excitedly watching the contest. Chorus girls were screaming and hiding their faces in their abbreviated skirts. Hubbub reigned supreme. May Howard, owner of the aggregation of female antiquities and padded tights. caught sight of Manager Williams from the stage.

'You are a brute," she yelled. "You have ruined my reputation, and I'll never play in your nasty theatre again; no, never."

The audience rose en masse and cheered her to the echo. The whole theatre was in an uproar. Meanwhile Blake, with the dagger in his teeth, was searching the gallery for his torturer. He was not to be found, and the gods roared with delight whon Blake, acknowledging himself beaten, dropped on the stage the way he came and went on mopping the stage with the captive.

Sheedy for a long time was broke in New York, although he was never compelled to seek an improvised bed on the grass of Madison square. But he waited patiently for his luck to turn and he was rewarded. He won \$50,000 it is said, on the Summer races, and he is now prepared to re-enact his familiar role of the liberal sport, in which he won fame and glory immeasurable while he was still a citizen of Chicago. So far as is known he has paid all his Chicago debts and no gnawing sense of creditors unsatisfied, can, consequently, disturb the ejoyment he finds in distributing watch charms and scarf pins among his acquaintances.
